

HIGH FIELD 1.0 TESLA OPEN MRI

 **Abington Health Center – Blue Bell**

Patients love our new high field open MRI. *And you will too.*

TRADITIONAL MRI

- closed
- uncomfortable
- isolated

OPEN HIGH FIELD MRI

- spacious
- more relaxing
- interactive

Unique features:

- The World's first truly open high-field MRI
- The "sandwich" design is more comfortable for claustrophobic patients
- Uses advanced open magnet technology rather than traditional closed magnet
- Designed with the patient in mind, offering superior comfort and access
- Open table for better patient experience and can accommodate patients up to **550 lbs.**
- Advanced high-field performance increases image quality for better detection and faster diagnosis
- Excellent image quality comparable to that of closed 1.5 Tesla magnets
- Benefit for patients with medical complaints in their extremities, such as shoulders and elbows that can be placed in the center of the magnet, giving superior clinical results

TO SCHEDULE: Contact Central Scheduling at **215-481-EXAM**
