PROGRAM DESCRIPTION

This program is intended to present the audience an update on a wide array of neurovascular topics. The faculty will present concise, evidence-based lectures with some time to address questions.

EDUCATIONAL OBJECTIVES:

Upon completion of this session, the participant shall be able to:
1. Discuss advances in the management of acute ischemic and hemorrhagic stroke.
2. Describe current challenges and treatment strategies in the management of acute stroke.
3. Review the treatment and management for intracranial and extracranial atherosclerosis.
4. Describe less common causes of stroke.
5. Identify a best practice model to decrease morbidity and mortality from stroke.
