

MARTHA J. SACK, MD
Pathology
Abington Hospital
Abington - Lansdale Hospital

Martha J. Sack, MD completed her residency in anatomic and clinical pathology at Albert Einstein College of Medicine in Bronx, New York. Dr. Sack is Board Certified in Anatomical Pathology.

Dr. Sack specializes in Cytopathology at Abington - Jefferson Health, in Abington, Pennsylvania. She has a special interest in thyroid, head and neck, lung and GYN cytology.

Personal Statement:

“My fascination with the miracle of the human body led me to a career in Pathology. I rarely meet patients and I feel it is important to understand the whole ‘story’ of what brings them to seek medical care, as well as all of the steps leading up to the specimen that I am examining under my microscope. Ultimately, I make every effort to integrate all relevant clinical and radiologic data into my assessment to deliver a final report that serves as a communication tool for making decision about treatment strategies.”
