

CHRISTIAN J. FIDLER, MD

Medical Oncology
The Asplundh Cancer Pavilion

Christian J. Fidler, MD, received fellowship training in hematology and medical oncology at Fox Chase Cancer Center in Philadelphia in 2012 and was elected as the Chief Fellow in Medical Oncology. Prior to his fellowship training, he was a resident at the University of Pittsburgh Medical Center. He received his medical degree from Pennsylvania State

School of Medicine in 2006. Dr. Fidler is board certified in internal medicine and medical/hematology oncology. He currently practices at Abington Memorial Hospital in the Asplundh Cancer Pavilion.

He has special interests in both benign and malignant hematology, head and neck cancer and lung and GU malignancies. His philosophy of care is simple: to educate his patients regarding their disease and provide the proper treatment options in a comfortable and compassionate manner. He chose a medical career because he has always been fascinated with research and science. Medicine allows him to interact with people and help to diagnose, treat and provide the emotional support in dealing with oncology issues.

Background

Carnegie-Mellon University
Pittsburgh, PA
(BA, 1998 - 2002)

Pennsylvania State School of Medicine
Hershey, PA
(MD, 2006)

University of Pittsburgh Medical Center
Pittsburgh, PA
(Resident, 2006 - 2009)

Fox Chase Cancer Center
Philadelphia, PA
(Fellowship, Hematology/Medical Oncology, 2009 - 2012)

The Asplundh Cancer Pavilion provides the latest treatments and access to clinical trials, as well as support services to ensure that each patient receive the best possible care. Our medical oncologists, cancer surgeons, radiation oncologists, hematologists, pathologists and interventional radiologists are experienced in providing the highest quality diagnostics, treatment and ongoing care.

The team approach at The Asplundh Cancer Pavilion draws professionals from various disciplines within cancer treatment and other medical specialties throughout Abington Memorial Hospital. These highly skilled experts work together to provide the personal focus that is so important for cancer care, whether delivered as outpatient therapy, in our inpatient oncology unit or at home.

Through our Evaluation Services Program, patients can take advantage of a multidisciplinary team of physicians who will discuss their diagnosis and treatment recommendations. Some patients use this free service when seeking a second opinion.

Because some therapies can be complicated and patients may need to juggle frequent office visits, testing appointments, treatment sessions and more, our specially trained nurse navigators help make the experience go more smoothly. These navigators are available to answer questions, assist with concerns or offer guidance.

The Asplundh Cancer Pavilion has been evaluated and honored with accreditation by the Commission on Cancer of the American College of Surgeons. Such official recognition assures patients that our center meets the highest national standards for prevention, early detection, diagnosis and treatment. What's more, our center was selected as a Blue Distinction Center for Complex and Rare Cancers. This designation was given for our demonstrated depth of multidisciplinary expertise and experience treating 14 rare cancers, such as thyroid, liver and bladder cancer.
