

**GEORGE H. DOONEIEF, MD**

Division of Neurology

Abington — Jefferson Health Physicians

*A New Jersey native from Cherry Hill, Dr. Dooneief graduated from Dartmouth College and received his medical degree from the University of Medicine and Dentistry of New Jersey - New Jersey Medical School. He completed an internship at Roosevelt Hospital, a neurology residency at Mount Sinai Medical Center and subspecialty training*

*in behavioral neurology and neuroepidemiology at Columbia-Presbyterian Medical Center - all in New York City. While at Columbia, Dr. Dooneief also earned his master's degree in Public Health. He has done research and clinical work with patients with Alzheimer's disease, AIDS and other disorders. He has also authored more than 20 articles in leading scientific journals. Dr. Dooneief is board certified in neurology and practices general neurology while maintaining a special interest in neuropsychiatric disorders.*

The Neurology Group is dedicated to the practice of comprehensive neurological care. Founded originally in Norristown in 1959, the group includes board-certified neurologists and a neuro- psychologist. Each physician has his/her own subspecialty areas of interest and also practices general neurology. Specialty areas include: Peripheral nerve and neuromuscular disease, cognitive disorders, neuro-ophthalmology, epilepsy and child neurology. The Neurology Group provides neurological care for patients at its Norristown, Collegeville and Flourtown offices.

Abington's Division of Neurology provides sub-specialty care for patients who suffered a stroke, with epilepsy, multiple sclerosis, gait disorders, cognitive impairment, Parkinson's disease, neuropathy and headaches.

The Neurosciences Institute at Abington Hospital — Jefferson Health provides comprehensive expertise in the diagnosis and treatment of neurological conditions. An evolution in services and the growth in the depth of the physicians on the neurosciences team have put us at the forefront in the treatment of brain, spinal cord and peripheral nerve disorders.
