

MICHAEL S. YOON, MD, FACS

Neurosurgery

Neurosurgical Associates of Abington
Abington Health Physicians

Michael S. Yoon, MD, FACS, is board certified by the American Board of Neurological Surgery. Dr. Yoon completed his residency at Temple University Hospital in 2000. He joined Neurosurgical Associates of Abington and has practiced at Abington Hospital since that time. The Neurosurgery Division

of Abington Hospital offers high quality surgical treatment of the nervous system including but not limited to surgery of the spine, brain, and peripheral nerves using state-of-the-art technology and advanced equipment. Neurosurgeons work with specialty trained nurses and professional supporting staff throughout the entire treatment process to insure the highest quality care is given.

The Neurosciences Institute signifies the importance of-and expertise in-the diagnosis and treatment of neurological conditions available at Abington Hospital. An evolution in services and the continuous growth in the depth of the physicians on the neurosciences team have put us at the forefront in the treatment of brain, spinal cord and peripheral nerve disorders. Neurosciences Institute specialists include:

- Five full-time neurosurgeons providing advance brain, nerve, and trauma care.
- Neurosurgeons specially trained in the most recent advances in spine surgery.
- Around-the-clock availability of interventional neurologists, the first non-university-based hospital to provide this expanded level of care neuroendovascular therapy for cerebrovascular diseases.
- Partnership with the Asplundh Cancer Pavilion to render the highest level of care for neuro-oncology patients.

Background

Brown University
Providence, Rhode Island
(BS, 1985 - 1989)

University of Virginia School of Medicine
Charlottesville, Virginia
(MD, 1989 - 1994)

Temple University Hospital
Philadelphia, Pennsylvania
(Intern, General Surgery, 1994 - 1995)

Temple University Hospital
Philadelphia, Pennsylvania
(Residency, Neurosurgery, 1995 - 2000)

Dr. Yoon treats many patients with degenerative spinal conditions including stenosis and herniated discs. He has a particular interest in deep brain stimulation for the treatment of movement disorders. He completed a six-month fellowship in stereotactic and functional neurosurgery during his residency. He has expertise in intracerebral aneurysm clipping, carpal tunnel release, and spinal cord stimulator implantation for pain. Dr. Yoon is a member of the American Association of Neurological Surgeons, American College of Surgeons, Congress of Neurological Surgeons, North American Spine Society, and American Society for Stereotactic and Functional Neurosurgery.
