

HANA CHOE, MD

Neurovascular

Director, Neurocritical Care

Co-Director, Neurovascular

Hana Choe, MD, specializes in neurovascular care for patients suffering from cerebrovascular disease and conditions. Dr. Choe completed her fellowship training in neurointerventional radiology from New York University in 2012. Prior to her fellowship, she completed a residency in neurology in 2010 and an internship in internal medicine in 2008, both from Temple University Hospital. She

received neurosurgical training at Thomas Jefferson Hospital and completed a general surgery internship at the University of Southern California in Los Angeles in 2003. Dr. Choe received her medical degree from School of Medicine SUNY at Buffalo in 2002.

She is board certified in neurology and achieved many academic honors and awards. Dr. Choe is a member of the Society for Vascular and Interventional Neurology, the American Academy of Neurology and the Society for Neurointerventional Surgeons. She has published a variety of papers and abstracts on neurological brain and spine disorders. She has presented numerous topics on neurological disorders to Temple University Hospital and Thomas Jefferson University.

Our specialists in neurovascular care provide advanced, minimally invasive treatment for cerebrovascular diseases such as strokes or aneurysms. Abington Hospital's comprehensive endovascular treatments are available around the clock. Our neurosciences team is specialized in treating a full range of neurovascular diseases with the latest techniques. They include:

- Cerebral aneurysms with coils, stents or flow diversion
- Cervical or intracranial stenosis with stents
- Stroke treatment with intra-arterial thrombolysis or thrombectomy
- Vascular malformations or fistulas with glue or onyx embolization
- Tumor devascularization with particle embolization
- WADA testing for language and memory laterality
- Vertebral compression fractures with Kyphoplasty
- Diagnostic cerebral and spinal angiography for neurovascular evaluation

The Neurosciences Institute signifies the importance of and expertise in the diagnosis and treatment of neurological conditions available at Abington Hospital. An evolution in services and the continuous growth in the depth of the physicians on the neurosciences team have put us at the forefront in the treatment of brain, spinal cord and peripheral nerve disorders.

Background

Columbia University, Barnard College
New York, NY
(BA, Biopsychology, Chemistry, 1996)

New York University
Graduate School of Arts and Sciences
New York, NY
(MS, Neuroscience, 1998)

School of Medicine SUNY at Buffalo
Buffalo, New York
(MD, 1998-2002)

USC Keck School of Medicine
Los Angeles, CA
(Internship, General Surgery, 2002 - 2003)

Thomas Jefferson Hospital
Philadelphia, PA
(Residency, Neurosurgery, 2003 - 2005)

Temple University Hospital
Philadelphia, PA
(Internship, Internal Medicine, 2007 - 2008)
(Residency, Neurology, 2008 - 2010)
(Chief Resident, Neurology, 2010)

New York University Medical Center
New York, NY
Fellowship, Neurointerventional Radiology,
2006-2007 & 2011-2012)
